

Make The Complicated Easy

SCHIP Compliance

Regulatory requirements can be complex, making compliance confusing. To protect Medicare's financial interest, primary insurers must fulfill several obligations when settling workers compensation, liability, auto and other claims. This ensures Medicare remains as the secondary payer of medical expenses. To cooperate with the Centers for Medicare & Medicaid Services (CMS), Broadspire offers:

- Reliable queries and reports to help our clients avoid significant penalties
- Oversight to assist with meeting all regulations
- The ability to interface with all data from all vendors

YOUR EXPERTISE

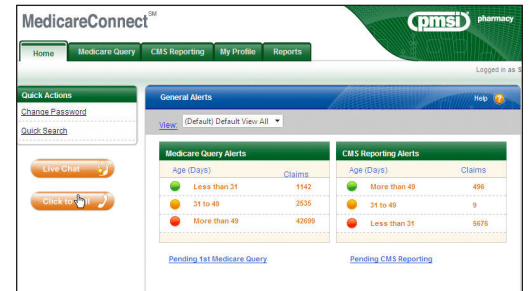

With potential fines of \$1000 a day, you need expertise. The Broadspire SCHIP Compliance Team along with our reporting agent, PMSI, provides the knowledge of federal and jurisdictional guidelines your program needs. Our specially trained professionals have extensive experience in MMSEA Section 111 Mandatory Insurance Reporting (MIR) SCHIP. Currently, we assist over 600 Responsible Reporting Entities (RREs) in Mandatory Insurance Reporting compliance.

Our specialists are available to respond to your questions and offer guidance. Our service also includes regular email updates and webex broadcasts that cover the latest CMS regulations and changes.

A PROVEN PROCESS

Broadspire, in partnership with PMSI, utilizes a software program to manage Medicare beneficiaries within the established CMS timelines. A Medicare Beneficiary "Dashboard" highlights claimants who

are Medicare eligible and automatically identifies any data components needed to successfully report to CMS. The Broadspire SCHIP Compliance Team provides training to our claim adjusters on SCHIP guidelines and maintains regular communication to our claim professionals to notify them of Medicare beneficiaries.

Broadspire can act on your behalf and can be designated as your CMS Account Manager or Account Disignee to manage the CMS notifications and alerts.

COMPREHENSIVE SERVICE

Broadspire has a strategic partnership with an experienced Medicare Set-Aside partner who offers services that include conditional payment identification and negotiation services for workers compensation, no-fault and liability claims.

OUR COMMITMENT TO YOU

We evaluate everything we do by questioning whether it will improve the quality, consistency and outcomes of your risk program. By holding ourselves up to this standard, we constantly keep ourselves focused on your goals.

For more information, contact Broadspire by calling 1-866-625-1662 or emailing us at Broadspire_Info@choosebroadspire.com. www.choosebroadspire.com
